LRC Webcam Instructions

- Check out a webcam and microphone headset from the front desk.
- Plug both webcam and microphone headset into the PC where you are seated.
- Double click the link “Windows Movie Maker” on the desktop.
- Click “Tasks” in the navigation bar at the top of the window.
- In the menu that appears on the left-hand side of the screen, click “Capture from video device”.
- In the dialogue box that appears, click “Next”.
- Give your video a title, then click “Next” again.
- Click “Next” a third time.
- You will see webcam input on the screen. Click “Start capture” to begin recording video.
- When you’re done recording, click “Stop capture”.
- Click “Finish”.
- Close the “Windows Movie Maker” application.
- Your movie will be located in the folder “Student Video Files” on the desktop.
